*WE'RE ON A MISSION TO DELIVER*

# Hard-Hitting Bargains.

In 1989, Magnum Tool Corp, Inc. began its journey as a tool distributor in our hometown of Houston, Texas. Aiming to build a lasting imprint on our community, we focused on establishing a reputation for delivering professional-grade tools and equipment at exceptional value. We are blessed and proud of the company we've built with the support of our community, our great team, the network of distribution we have cultivated, and the many loyal contractors that use our tools and equipment worldwide.

Today, Magnum is well-known for offering a great selection of tools for the trades. We continue to innovate and add value to the products we develop and carry. Magnum products are engineered to excel with rugged daily use. Whether it's a Sledge Hammer, Shovel, or Rake; Magnum provides professional-grade equipment to keep you hitting your target.

Our commitment to excel through friendly and knowledgeable customer service, product training, and support, is what sets Magnum apart. Our devoted team works in tandem to ensure your satisfaction.

# MAGNUM 16 OZ HAMMERS

## RIP & CLAW

A Claw Hammer has a curved claw, perfect for pulling out nails and general-purpose use in woodworking, and construction. In contrast, a Rip Hammer features a straight claw, ideal for ripping apart wood along the grain, making it suitable for carpentry and framing tasks.

## HANDLES

A Wood Handle Claw Hammer offers a traditional, classic feel with its timeless design. Known for its natural feel and warmth, the wood handle provides a comfortable grip. However, it may be prone to splintering over time and lacks the shock absorption of fiberglass.

In contrast, a Fiberglass Claw Hammer offers lightweight durability, reducing user fatigue and providing shock absorption for comfortable use. It's also preferred around electrical work.

Lastly, a Steel Claw Hammer provides unmatched strength and resilience, ideal for heavy-duty tasks where power and precision are paramount. Choose the classic charm of wood, the lightweight durability of fiberglass, or the raw power of steel to suit your needs.

# Check it before you wreck it.

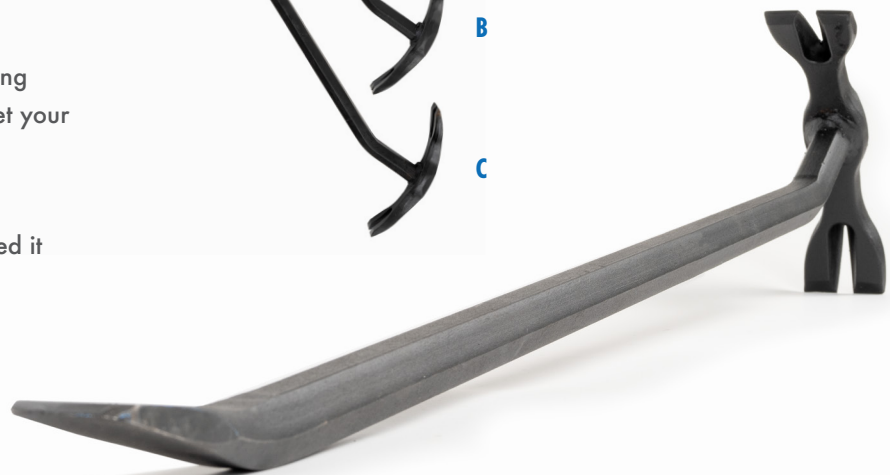

Magnum Ironman Wrecking Bars, also used as a pry bar or crow bar, are versatile tools designed for various demolition and construction tasks.

- Demolition: Breaking apart walls, floors, or other structures during renovations or demo.
- Removing nails: Extracting nails or screws from wood and walls.
- Prying: Separating two objects that are joined together, such as boards, panels, or pallets.
- Leverage: Providing leverage to lift heavy objects or materials.
- Aligning Materials: Adjusting or aligning heavy materials like beams or boards into place.
- Wrecking and Pulling: Breaking down pallets, pulling apart wooden crates, or disassembling structures

## MAGNUM IRONMAN WRECKING BARS

The ultimate tool for demolition and construction tasks. Crafted from high-strength steel, this bar is built to withstand the toughest jobs. Whether you're tearing down walls, removing nails, or prying apart materials, trust the durability and reliability of our Ironman series to get the job done. A must-have for any demolition expert.

- High-strength steel to withstand a beating
- Available in a variety of lengths to meet your demands
- Double sided claw head for maximum versatility
- Pry bar end for leverage when you need it
