

MAGNUM[®]

SAFE-CUT

Mobile Cutting Station

- Lightweight and portable for easy mobility around the worksite, even up stairs
- Mobile cutting station purpose-built for safety, and productivity
- Adds protection from sparks, and debris, while providing storage

**Safety.
Mobility.
Productivity.**

A worksite-ready answer for cutting materials to length with control and confidence, the **Magnum Safe-Cut Mobile Cutting Station** creates a mobile cutting area and added storage on our rugged Pro-Series service cart platform, right where the crew is working. Includes everything but the saw, and comes partially assembled.

- Mobile cutting station built for miter saws and chop saws
- Compact, easy-rolling design that reduces trips to a fixed cutting area
- Safety focused construction that stands up to heavy use while helping shield workers and surroundings from sparks and debris
